

①

Compared to WSDA notes column  
1K acres double cropped in 2017 as per  
30K acres double cropped in any of  
the last 10 years.

We know WSDA data for double  
cropping is incomplete info. This confirmed

②

Then show similar pie charts for all of Eastern WA

③

Then get to usual inspection contingency table.

Show example time series for FP, FN, TP, TN

Methodology → for those interested.
